

Samantha Cornell

West Coast Leader of the Month

Assistant Account Manager

Sutter Hospital

The Pandemic has brought its challenges to every Propark location. Sutter is no exception. In fact, Sutter has its own unique challenges being a health care facility in California during COVID-19. When the going got tough, Samantha stepped in and stepped up in a big way.

California's regulations and compliance requirements are ever evolving. Samantha's proactive stance on compliance measures and thorough documentation provided a solid foundation upon which we corporate was able to come in and assist with various urgent COVID related matters.

Samantha demonstrated tact, poise and professionalism when relaying urgent, and critical COVID related information to employees, co-workers, clients and the local compliance bureaus. Her organizational skills and administrative prowess proved crucial in providing Corporate the information necessary to ensure compliance and her quick actions helped to prevent further spread of any COVID infections at her locations.

Samantha went above and beyond while shining under tremendous pressure. For that I would like to nominate her for Leader of the Month.
