

NOMINATION: ANGELO GRECH

As the Account Manager overseeing our Cambridge Health Alliance account in Cambridge, MA, Angelo Grech has distinguished himself by continuously demonstrating undying loyalty, dedication, and an extremely commendable work ethic. Not only has Angelo performed his parking and transportation responsibilities successfully and with impeccable diligence, exceeding our and our Client's expectations, he has performed similarly in support of our Client's mission.

For example: Angelo received two 'CHA Cares Honors' from our Client and which recognizes co-workers for doing something to help a patient, a visitor, a co-worker, or even someone outside CHA who is a partner for CHA patients.

Specifically, "Angelo had signs made for our 2 drive up INR testing sites. When they came in, he went above and beyond to deliver them to both sites too! We really appreciate it! - Monica Akus

Yvonne Johnson wrote.."I want to thank Angelo for his support of the Foodservices Department with our various challenges as we deliver donated food items across the Alliance. Angelo's approach in each situation is solution driven with a positive "can-do attitude." Thank you for all you do, Angelo.

Accolades are even given to Angelo directly from our Client, Tom Leslie, Director of Real Estate, Parking and Transportation, "Angelo, thank you for all you do for CHA during this difficult time when you and your team are helping out in ways that are above and beyond the scope of your job. Propark has been a great partner always, but especially during this pandemic."

In addition, when CHA received thousands of vaccines and attempted to serve its patients at its hospitals, their capabilities and resources were challenged. Angelo, at our Client's request, was tasked with converting a vacant 30,000 square foot retail space into a CHA/community vaccination facility. Through his and his Propark team's efforts, he cleaned, renovated, painted, signed, repaired, sanitized, and organized the space including providing admin and vaccination stations, installing electrical and internet service for each station, a breakroom for hospital staff, and an on-site emergency room...all in two weeks! Through his leadership he delivered to CHA the capacity to successfully deliver thousands of vaccinations to its patients conveniently, efficiently, alleviating overcrowding and inconvenience. Attached are photos depicting what Angelo and his team accomplished because of his can-do attitude, devotion to duty and his leadership skills.

Angelo demonstrated leadership abilities are unique, highly commendable and have brought great credit and recognition (by our Client) to himself and Propark. (see photos on next pages)
